# FXXCNC Rotary

## Digital Power

From 20-60 p/min

Existing in 2 versions:

- 9 x stations : from 10 to 30 p/min
- 12 x stations : from 20 to 60 p/min

FLAT

CYLINDRICAL

ELLIPTICAL

CONICAL

Linear camera for angular positioning or quality control

### Plus unique features

- Possibility to integrate spot colour (using colour matching system)
- Possibility to integrate conventional screen printing station for special effect no achievable with ink jet process
